

File Locations for TeleType GPS Europe Aviation and Street Maps (#9078)

When installing the TeleType GPS program on desktop computer (or laptop) and Pocket PC, the default directory is C:\Program Files\GPS. TeleType GPS software automatically creates a shortcut to the executable file (gps.exe) in the \Start\Programs menu.

GPS Program	Desktop Computer	PDA
gps.exe	C:\Program Files\GPS	\Program Files\GPS

TeleType GPS Aviation CD also includes several utility programs, such as

1. Weight & Balance – a program that allows you to modify the weight and balance parameters of your aircraft to determine flight load envelop. Directly installed to PDA.
2. Aviation Checklist – a program that allows you to make up your own checklist for the aircraft you fly). Directly installed to PDA.
3. E6B Flight Planner – a program that calculates Great Circle distances, fuel consumption, and heading corrections.

Before you install these programs, please refer to the corresponding user guide (located in the same directory with the executable file).

Programs	GPS CD	Desktop Computer	PDA
Weight & Balance	\Aviation\9071_Weight&Balance\setup.exe	N/A	\Program Files\WB
