New - Most Advanced Truck GPS Model WorldNav 7400

The new WorldNav 7400 Truck GPS model is the latest and most versatile commercial trucker GPS offered by TeleType. The 7400 offers a high resolution 7" touch screen equipped with Bluetooth for hands free calling, and an FM transmitter for loud, clear voice navigation instructions. You'll see more map area in the same space, making navigation even easier. The 7400 series includes the new Version 10 software and maps pre-loaded leaving the SD slot available for viewing videos and pictures. This model also features a serial expansion port which allows special accessories to be added such as Traffic Antenna, and tire pressure monitoring. Part#74006, \$349. [Details](#)

Know Before You Go!

WorldNav 7400 Truck GPS Bluetooth and FM plus optional traffic and tire pressure monitoring.

Bundle Offers High Res 7" GPS Plus Rearview Camera

7300 Plus Rearview Camera

Enjoy using a top of the line 7 inch high resolution Trucker GPS with the benefit and convenience of a rearview camera. This new bundle takes the hassle out of trying to configure your own rearview camera system. Bundled with a new high resolution infra-red camera allowing you to see a highly detailed image at night. All cables are included for your convenience. Wide angle lens helps avoid blind spots. Part #730065, \$549. [Details](#)

Extra Large Dash Mount Now Available

Dash mount designed especially for the new 7" WorldNav GPS models and also supports the 5" and 3.5" models. This flexible dash mount fits any dashboard and makes it easy to position and reach your GPS by eliminating the need to attach the GPS to the windshield. The anti-skid bottom keeps the mount securely in place. Mount your GPS legally in all states using this mount. Part #7509, \$54. [Details](#)

Dash Mount

Tips

- Tap the Next Turn arrow to repeat the last voice instruction.
- Use the FM tuner to hear voice instructions loud and clear.
- Use Search by Services to find businesses by name.
